

Chapter 38

RURAL SETTLEMENT ZONE - RULES

INTRODUCTION

This Chapter contains rules managing land uses in the Rural Settlement Zone. The boundaries of this zone are shown on the planning maps.

There is limited opportunity for further development in these areas due to the physical characteristics of the settlement areas and the lack of services to these areas. The rules in this plan reflect the situation in these areas, where further development on sites less than 1000m² would have significant cumulative effects on the existing environment. With the exception of the Bay View Wastewater System no financial planning has been undertaken for additional services to these areas. The introduction of a reticulated wastewater system for Bay View would not alone successfully avoid, remedy or mitigate the effects of any further development. The adverse effects of further development in Bay View on stormwater and roading systems would be significant.

All rules apply throughout the Rural Settlement Zone unless otherwise stated.
