Dear Greg

BUPA NAPIER - ULYATT ROAD

As requested I have reviewed the NZTA submission to the above proposal.

The current acoustic design has been based on the requirements of Rule 34.25.2 of the District Plan and as set out in the acoustic report those requirements will be achieved.

By achieving the requirements of Rule 34.25.2 the noise controls sought by the NZTA in their submission dated 1st day of February 2018 will also be achieved with a good factor of safety. This can be confirmed by inspection of the noise assessment. It is therefore recommended that for any approval the noise requirements should only refer to those set out in Rule 34.25.2, as the introduction of any parallel rule can lead to potential conflict and uncertainty.

Should you have any questions regarding the above please do not hesitate to contact me.

Yours sincerely
Hegley Acoustic Consultants

Nevil Hegley
