

Producer Statement Construction (PS3):

Declaration of Installation by Pressure Sewer Installer

| | |
|-----------------------------------|---|
| Building Consent Number | |
| Installer Name | |
| Installer Company | |
| Site Address | |
| Property Owner (Name and Contact) | |
| Type of Pressure Sewer System | <input type="checkbox"/> E-ONE (Ecoflow) <input type="checkbox"/> Aquatec |
| Type of Control System | <input type="checkbox"/> Simple <input type="checkbox"/> Smart |

As a Napier City Council Approved Pressure Sewer Installer, I can confirm that the Works have been carried out in accordance with Napier City Council (NCC) requirements, and the approved design drawings and specifications.

This installation complies with the following:

- The materials and equipment comply with NCC Engineering Standards for Land Development and Pressure Sewer Design Standards; and
- the materials and equipment have been installed by a NCC Approved Pressure Sewer Installer; and
- the workmanship has been in accordance with accepted practice and in accordance with NCC standards; and
- the pump system and controls have been checked to ensure effective operation.
- The installation complies with the New Zealand Building Code.

- All as-built record drawings are submitted to NCC.
- The Homeowner's Guide was handed to the owner and explained to the homeowner.
- The Warranty of the approved product, product information, Operation and Maintenance information and contact(s) for system maintenance was handed to the owner.

I understand that if this producer statement is accepted, it may be used to verify that the on-property Pressure Sewer system meets the requirements as specified.
